

SERVICE PARKING PERMIT INFORMATION

***PLEASE NOTE* Physical permits will no longer issued. Valid permits are determined by vehicle license number.**

A service permit allows businesses which make house calls or perform small, **non-construction** jobs (typically less than one week), and require their vehicles to be nearby, to park in permitted or metered areas when performing service/business calls. Must be displayed on "Business Vehicle" and used only during service calls.

Commercial/Business vehicles are those deemed necessary for performing the service and doing business. Signage must be at least 12" X 18" in size in 2" or larger lettering in a color that contrasts to the background and is clearly visible from 20 feet displayed on both sides of the vehicle.

A vehicle showing exterior commercial markings actively performing a service will be permitted to park within the (A), (W), (O), (BC), or (G) Permit Parking Zones for up to three (3) hours and in the Pay to Park areas for up to three (3) hours. Service Permits are transferable as long as they are being used for service **and** comply with the above regulations. *This permit does not exempt the holder/vehicle from complying with other parking regulations.*

THIS PERMIT IS NOT FOR CENTERLANE PARKING.

Permits are \$150 each and are valid for one year from date of purchase.
