ARCHITECTURAL DESCRIPTION: Front-gabled building, which appears to have been a residence. Novelty siding, which extends into the gable end without a break. Central door flanked by two small windows. Simple, wooden door and window surrounds. Window in gable end. Gabled addition on northern elevation. Several shed additions on southern elevation. Corrugated metal roof. Not shown on 1922 Sanborn map, but appears to be an historic structure which was, presumably, relocated here.
